

MEDICAL EDUCATION UNIT

The NMC (erstwhile Medical Council of India) as per the MCI Regulations on Graduate Medical Education, 1997, had made it mandatory for all the medical colleges in the country to establish Medical Education Units (MEUs) in order to enable faculty members to update themselves in modern teaching methodology and educational technology for carrying out the UG /PG teaching effectively.

Aim:

1. Sensitize teachers about new concepts in teaching and assessment methods,
2. Develop knowledge and clinical skills required for performing the role of competent and effective teacher, administrator, researcher and mentor,
3. Assist clinicians to acquire competency in communication, ethics and behavioural skills,
4. Update knowledge using modern information and research methodology tools.

Keeping these directives of NMC/MCI in mind, a MEU is being established at Shri Balaji Institute of Medical Science in the year 2021 with MEU core members.

- Fully airconditioned furnished Hall with SMART board LCD projector, AV Aids, and Video conferencing facilities with internet connectivity and highspeed Wi-Fi accessibility and uninterrupted power backup.
- A thematic, MEU wall with posters to display important concepts in medical education.
- MEU has a well-stuffed library with books and Journals.
- MEU has its own 'Annual Calendar of Events' to host/conduct the routine programmes.
- The MEU works in close association with Clinical Skills Lab in carrying out the Hands-on Training Clinical Skill Training workshops/activities for the staff and students.
- The MEU works in close association with Scientific committee in carrying out CME, Conferences, webinars. Research project proposals by faculty and students.
- The MEU works in close association with Curriculum committee- Support implementation of the new CBME curriculum for UG.
- Document activities to facilitate Accreditation process. ex. CME Credit hours.
- Conduct professional development programmes to sensitize faculty about newer concepts in medical education and develop knowledge and skills required by them to perform their varied roles as competent and effective teachers, researchers and mentors-.FDP
